DETAILED ACTION

Election/Restrictions

1. Claims 2-4, 10-48 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention and species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on Dec 12, 2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 5-9 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Handler 4676655. Note disc with perforations 128, 139 , and blades 131, figs 8-9, 101 and coupling means 165, 164, 166, which couples the piston 52 to the rod 101 at 165, or see the uncoupled configuration at the top of figure 4 and the coupled configuration at the bottom of figure 4 when the latch operators 67 is moved.

Response to Arguments

4. Applicant's arguments filed 3-21-2006 have been fully considered but they are not persuasive. Applicant argues that each of the references does not have a stop, as now amended. In response not the feature of the stop in the rejection above.

Conclusion

5. Applicant's amendment in the recitation of a stop has necessitated the new ground(s) of rejection presented in this Office action in pointing out a stop element. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
